_____

📍 *Now There is One Thing You Need To Know*👇🏽

_____

THIS BUSINESS IS NOT MEANT FOR EVERYBODY📌📌

1. Lazy people

2. People with a get rich quick mindset

3. People who give excuses

4. People with a poverty mindset

5. People with Negative mindset

If you fall under these categories of people, you should leave right now, I don't like people wasting my time, so I won't waste yours.

_____

[RECORD AS VOICE NOTE PREFERABLY]👇👇

Now, as I wrote above, this business is not meant for everybody. If you know you fall under any of these categories of people, you cannot do this business and it will be best for you to leave.

If you're a lazy person and you've decided that you cannot make out one to two hours every day to learn and implement everything that I will be teaching in this business, then it's time for you to leave the group because this business will not work for you.

This is not a get-rich-quick scheme. This is not a Ponzi scheme. There is work involved. People with a get-rich-quick mindset, you want to start today and tomorrow you want become a millionaire without doing anything. This is not an investment scheme. This is not a Ponzi scheme, so this business will not work for you

It's a legit business, okay? And You have to put in effort and actually do stuff to be able to make money from this business.okay.

Now, if you're someone who gives excuses, as I've said, put out one to two hours of your time every day. Then you'll find all excuse in the world why you cannot bring out one hour of your time to learn and implement, you're always giving excuses, always this and that, "Oh, I can't do this," "Oh, I can't do that," "Oh, I'm too young," "Oh, I'm too old," or "Oh" I don't have time to be petting anybody and pushing anybody to do the business. Okay.

I'm here for serious business, and I do not like excuses. So, if you're someone who gives excuses, this is the time for you to leave this group now because this business will not work for you.

If you have a poverty mindset and you believe that you can never make it in this life, or you have the subconscious belief that rich people are evil and people who actually make money are evil, and you cannot make money in this life, you cannot become rich, you cannot step out of poverty, then I don't even know why you're here because this business is going to make you rich. And If you know you're afraid of being rich, just leave the group now.

And if you have a negative mindset, maybe for some reason or another you've tried something online before and it didn't work for you, so now you believe that everything online is a scam. Or maybe you've been scammed before, and now you believe that everything online is a scam and everybody is out to get you and everybody is just a scammer

I don't have time to start explaining that I'm not a scammer or that this is a legit business. So, it's time for you to leave the group

if you fall under any of these categories, leave the group now because you will not waste my time, and I will not waste your time. And that is why I am telling you upfront.

But if you know that you can change, you're ready to change, and actually put your mind to learning this business, then you can stay.

_____

NOW, I WANT YOU TO IMAGINE THIS 👇🏽👇🏽

1. Imagine yourself making at least 500k every single month. How would that change your life?? 🔥‼

2. Imagine yourself being able to quit your tedious 9-5 job that is paying you peanuts at the end of the month🔥‼

3. Imagine being able to pay all the debts that you owe on loan apps and finally having rest of mind🔥

4. Imagine yourself being an independent woman who doesn't depend on her husband anymore for every little thing you want 📌🔥

5. Imagine yourself being able to visit your dream country, simply because of an online business you started 📌‼🔥

6. Imagine yourself being a graduate with millions of money in your bank account even before you graduate all because you take Fast Action tonight‼

_____

[RECORD AS VOICE NOTE PREFERABLY]👇👇

Now I want you to imagine this okay. Just for a few seconds imagine yourself making at least 500,000 Naira every single month for yourself with just your smartphone, how would that money change your life?

Or just imagine yourself being able to quit that your hard nine to five job that is paying you peanuts where your boss still insults you and belittles you and then pays you peanuts at the end of the month. Just imagine being able to finally quit that job.

Imagine being able to pay all the debts that you owe loan apps and all the debts that you owe your friends and family. In fact imagine you become somebody that they now respect because you no longer borrow money and they're not afraid to pick your calls. Just imagine it

Or imagine yourself being an independent woman who doesn't need to depend on her husband or her boyfriend and who doesn't have to stay in an abusive relationship just because of money

you have your own money and you can pick the kind of relationship you want or even choose to be single just because you have your own money. You don't have to date for money anymore.

Or you are a wife you can finally help your husband out and he's not the sole breadwinner anymore. You can reduce his stress. Just imagine that

Or imagine yourself being able to visit your dream country, that vacation you've always Wanted to go on you know travel to Greece travel to Italy, Dubai wherever it is you've always wanted to go.

You've been seeing people on Instagram. Traveling with their friends and family or even if you want to Japa.

Imagine finally getting that money to be able to Japa to another country to be able to relocate to another country comfortably without owning anybody.

Imagine being a graduate with millions in your bank account even before you graduate. That you don't have to go and look for a job that you hate. Or go and start looking for internships where they don't pay and still take from you.

Imagine being a father that is finally able to comfortably take care of his children and provide a life for them that they truly deserve.

You are not anxious when it's time to pay school fees. You are not anxious when it's time to pay rent because you have money. You have the money in your bank account to actually do all these things comfortably and people respect you in this society.

Well I want to tell you that this class, If you follow everything that I'm going to be saying in this class tonight, it can give you those kind of results.

So it is absolutely important that you pay attention to everything that I'm going to be saying tonight. And most importantly that you take action on everything that I'm going to be saying tonight.

Now let me introduce to you the same Business model which is called AFFILIATE MARKETING USING AI

FIRST OF ALL, MOST PEOPLE UNDERSTAND AFFILIATE MARKETING THE WRONG WAY

BUT I WILL BE EXPLAINING THAT TO YOU TONIGHT!!📌

_____

Before we start talking about how AI can change your life…

FIRST OF ALL, WHAT IS AFFILIATE MARKETING?? 👇🏽👇🏽👇🏽

AFFILIATE MARKETING is a simple Business model you recommend helpful products to people who need them and you get paid a commission when they buy these products

It is not a referral scheme ❌
It is not a ponzi scheme ❌

This voice note below explains better 👇🏽

Make sure to listen carefully

[RECORD AS VOICE NOTE PREFERABLY]👇👇

Now this business I'm going to be introducing you to is called affiliate marketing using AI. Now you may or may not have heard about affiliate marketing but one thing I've come to understand is that what people think affiliate marketing is is completely wrong.

Affiliate marketing is not a referral scheme. Affiliate marketing is not a Ponzi scheme. Affiliate marketing is basically recommending helpful products to people who need them who need these products. Okay and you get paid a commission when people buy these products from you. Okay.

Let me give practical examples. Now in real life every day somehow we do affiliate marketing.

If you are popular with big markets especially in Nigeria where I am. If you go to the markets to buy clothes you'll see some people on the road saying "oh ah auntie are you here to buy clothes? What do you want to buy? You want to buy jeans?"

Come let me take you to this shop. Okay come let me take you to this shop where you'll buy the jeans from okay. When you follow that person to the shop, most times it is not his shop. He takes you to another person shop, you buy whatever you want to buy and then you go.

When you leave after you've paid, the owner will give a percentage of the money you paid to the person that brought you to the shop because he brought you to the shop.

Basically that person that brought you is a middle man, is an affiliate in this case who got paid a commission for showing you what to buy, for showing you where to buy what you wanted to buy. Let me use a bigger example.

Jumia for example okay. Jumia is a website where you can buy different items; Shoes, bags, clothes, gadgets name them. Okay.

Now Jumia does not own any products. Jumia is just a platform. What Jumia does is that it connects sellers; that it's people that are selling different things to buyers; people that want to buy different things.

So let's say you come on Jumia and you want to buy a pair of shoes and you type shoes or maybe you type sneakers. They will show you different places, different stores on Jumia where you can buy those shoes from.

So what you do you buy whatever shoe you want you make a payment and then you go. What Jumia does is that it takes a percentage of that money that you paid to the seller.

Okay so the seller gets his own money. Jumia gets his own commission and then you get the shoes that you paid for.

That is basically what affiliate marketing is but that is for physical products

When I'm talking about affiliate marketing I'm not talking about physical products or buying shoes or anything like that.

Okay. what I am talking about is Digital affiliate marketing. Now what Digital affiliate marketing is; is simply recommending digital products to people who are interested in buying these online products

It could be a product like; how to relocate, how to relocate to Rwanda for example. let's say somebody wants to relocate to Rwanda but they don't know how to about it. You as an affiliate will be like "oh you want to relocate to Rwanda, I know somebody that's has a course that teaches people how to relocate to Rwanda.
so take this my affiliate link and buy the course from this person. Okay now when that person buys the course from the vendor or from the owner of the course, you as an affiliate gets to keep a commission from that money that person paid.

Okay, because you showed him where by an information product that he needed.

So the vendor of the course, the person that created the course on how to relocate gets a part money, you get a part of money and the person that paid for the product gets the product and learns how to relocate to Rwanda and everybody is happy at the end of the day.

And that's simply what Affiliate Marketing is all about.

LISTEN TO THIS CAREFULLY TILL THE END

[PICTURE OF PROMPTEARN'S MARKETPLACE]

These are examples of digital products you will be promoting as an online affiliate marketer

_____

[RECORD AS VOICE NOTE PREFERABLY]👇👇

Alright, so these are examples of digital products that you get to promote at an online affiliate marketer.

Remember,I said we're not selling clothes, shoes or bags, that is physical affiliate marketing. This is digital, this is online affiliate marketing. What you're going be selling is digital products. Now these are examples of digital products, you can see them here. There are so many of them. So many of them.

Let's take for example you decide to sell "a course on video editing that teaches people how to edit videos with just their phone.

Let's say the course goes for $10. The course cost just $10 and you get a commission of 50% when you sell that course.

Now this simply means that when you get someone who wants to learn how to edit videos from his phone, and you give him your unique affiliate link to make payment for the course, What you're going to be getting is $5. $5 is going to be going to you as an affiliate and $5 is going to the vendor that created the course. And then the person that paid for the course is going to get access to his course in his email address. He is going to get the course sent to his email address then he can access it from there and that is simply how to do it

Now imagine a situation where you were able to sell like 5 of this video editing course in one day, with a commission of 50% that's 5x5 that is $25 you've be able to make in a day but that one is small money

There are courses that cost bigger amount and will make you better money. Okay

Now there are different platform where you can get access to these courses and a very good platform is PromptEarn.

They have a lot of products. A lot of good products that people are interested in buying and they sell very fast. They are good products that people are interested in buying. And I'm going to be showing you in this class how to get a PromptEarn account for free.

So, you don't actually have to pay for a PromptEarn account to get access to these products.

———————————————

[RECORD AS VOICE NOTE PREFERABLY]👇👇

And also before you start thinking “oh who am I actually going to sell to? I don’t have any contacts o, I don’t have any people i am going to sell to, I don’t know anybody that might be interested in buying what I’m selling, don’t be afraid okay.

You will be taught that step-by-step

So a good way you can actually get access to millions of people every day is social media; Facebook, Instagram, TikTok, Twitter, LinkedIn, YouTube…..

And everyday, millions of people come online on social media and that's actually your chance to actually promote your goods

Show them.

Tell them, “oh, this is what I do, If you need this, I'm your plug okay.

Basically that is what you do, you don't depend on your contact. You don't depend on anything. Okay. And in this class, I’m actually going to be showing you how you can use social media to get these people, to get millions, to get access to thousands, millions of people every day, who are interested in buying what you're selling.

And this is not difficult at all. It's actually not difficult. If I was able to do it, if I was able to start and set up this building and succeed at it, anybody can do it.

And from the results you’ve seen, this business doesn't just work for only me it's has work for so many people, so there's not to be afraid of.

———————————————

NOW WHY AI

Now, affiliate marketing is a very profitable business that has changed the lives of so many people.

But it can sometimes take a lot of time, effort & skill , and that’s what held most people back

Al changes all of that With Al, things are now fast and simple.

Now this is the entire content of the AIM AI course, okay? And this is all you need to actually set up a 500k to 2 million Naira online business every month for yourself, okay

It contains all the secret you need to build a life of financial freedom

Now let me do a brief breakdown of everything you'll be getting when you get AIM AI course today. You'll be getting lifetime access to our inner circle group chat for free.

Now that inner circle group chat you get to interact with other affiliates who have been in the business longer than you are and have made more money. You can learn from them, you can network with them, you can bond and maybe form beautiful and solid friendships
And learn a lot from them..

You also get to ask your questions or whatever it is that you need to understand in that group and you'll be getting lifetime access to it, okay

You will also be getting the Millionaire Mindset Hack Blueprint.

Now let me explain what this Millionaire Mindset Hack Blueprint is. If you were born poor or middle class, there are some limiting beliefs that you have been taught unconsciously. You did not do it to yourself. It just happened to you somehow. If you were born poor, you have probably heard the saying "money doesn't grow on trees" or "money doesn't come by that easily."

It is a lie. Money is not hard to find. But you wouldn't know that. In fact as I'm saying right now you might not even believe me and I was like that at a point. I actually didn't believe that, okay But there are some beliefs that if you don't let go of you cannot succeed in life. You cannot break free. You cannot become rich.

And that is why we have the Millionaire Mindset Hack Blueprint. [RECORD AS VOICE NOTE PREFERABLY]👇👇

Alright, we have come to the end of this class.

To make your payments for the AIM AI course, to get access to all my bonuses, all you have to do is send your payment, your one-time payment, the only payment you are making of 20,000 Naira to my bank account and I will help you set up.

Make sure to put in your full name as it is written on your bank account, your correct email address and your phone number.

Now let me say this one last thing.

There are two categories of people; There are people that after this class they're just going to leave and go back to their lives. They are going to continue that job they hate. They are going to continue going to celebrities DM to beg for money. They are going to keep asking their friends for 2k and borrowing from loan apps and just having their peace of mind taken away from them.

And there are another group of people that are going to take advantage of everything that I have said tonight and take advantage of this opportunity to start an online business for themselves and in a few weeks from now they will have results to show for it.

Which group do you belong in? I don't know. It's entirely up to you. But one thing I do know is that in a few weeks from now the difference between these two categories of people will be clear as day and night, okay?

How your life turns out, how your life looks like is entirely dependent on your hands and the actions that you take or refuse to take.

With that being said, to make your one-time payment of 20,000 Naira, you know what to do.
